

Version 8 Curl Pro/IDE License Installation Guide

✘ Before following this guide, you'll need a Curl Pro/IDE license.

After purchasing, you can use the license to upgrade.

- How to upgrade the CDE
- How to upgrade the Curl IDE

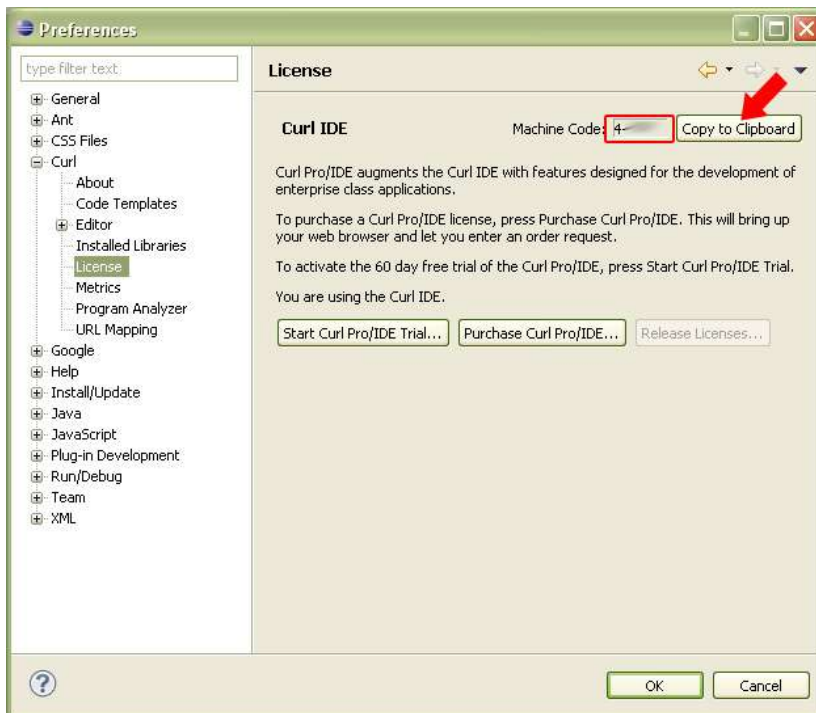

■ How to Upgrade the CDE

1. Download CDE Version 8.

2. Obtain a License Key

.Open Eclipse, go to “Window” -> “Curl” -> “Preference” -> “License”, where a “Machine Code” should be displayed

(indicated below in red).

Click the “Copy to Clipboard” button to copy the machine code.

3. Requesting a Curl Pro/IDE License Key

Send the machine code obtained above along with the following information to the SCSK Curl Pro/IDE License

Key request contact: ide-license@curlap.com.

【Required Information】

E-mail :

Machine Code:

Name

Invoice Number:

Company Name:

Reason for License Request: New Update PC Change Other ()

※ When requesting a PC change, please include the previous machine's code as well.

4 . Curl Pro/IDE License Key Delivery

SCSK will send the upgrade key via email.

5 . Curl Pro/IDE License Key Entry

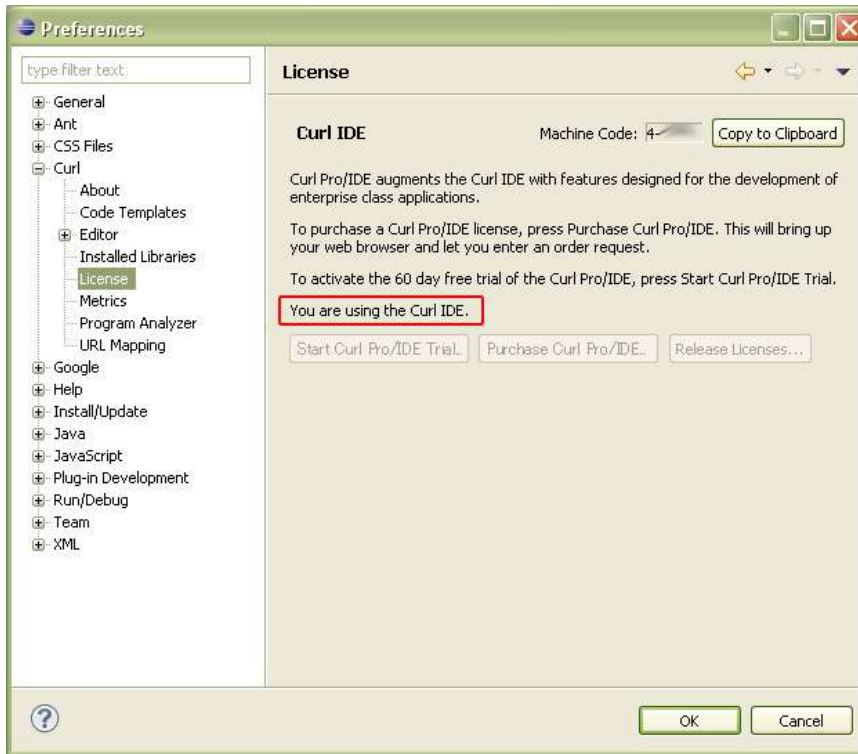

From the screen in step 2 above, if you click the “Purchase Curl Pro/IDE License” button, the following dialog should be displayed.

Enter (paste in) the license key that was received in step 4 above.

6 . Curl Pro/IDE License Verification

In Eclipse, the “Window” -> “Curl” -> “Preference” -> “License” screen should now display the message, “you are now using the Curl Pro/IDE.”

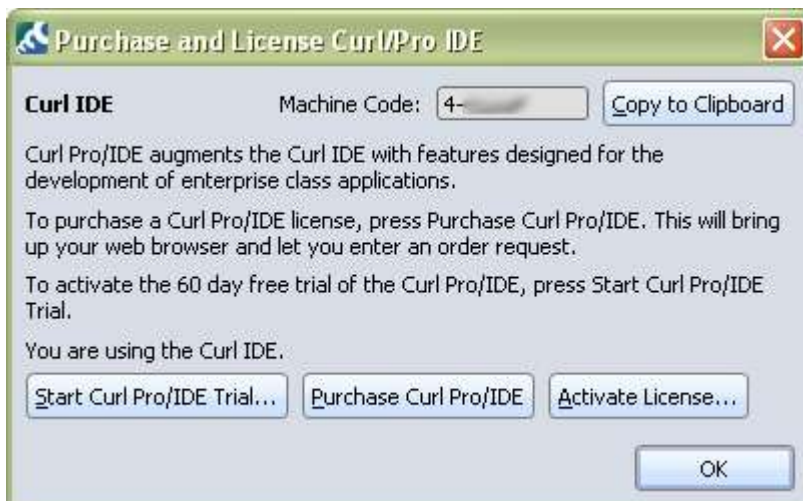

■ Upgrading the Curl IDE

1. Download CDE Version 8

※ The CDE and Curl IDE are included in the same installer.

2. Obtaining a License Key

Open the Curl IDE and click “Help” -> “Purchase Curl Pro/IDE License”. A dialog should open, and display a “Machine Code” (indicated below in red).

Click the “Copy to Clipboard” button to copy the machine code.

3. Requesting a Curl Pro/IDE License Key
